## PROFILE

Software Engineering undergraduate at AASTU with interest in mobile application development and backend systems. Experience building applications using Flutter and C++. Seeking opportunities to apply technical skills in software development and contribute to team projects.

## EDUCATION

**BSc in Software Engineering** 2024 – Present

*Addis Ababa Science and Technology University (AASTU)*

Focus areas: Data Structures, Database Systems, Object-Oriented Programming and Internet Programming.

## TECHNICAL SKILLS

**Languages:** C++, Java, Dart, HTML/CSS

**Frameworks & Tools:** Flutter, Android Studio, VS Code, Git, GitHub, Chrome DevTools

**Concepts:** SQL, API Integration, Debugging

## PROJECTS

**ClassLink** → Flutter · Dart · SQL

- Developed a mobile app for university students to share academic resources.
- Implemented user authentication and database management for student access.
- Designed the interface to handle multiple user requests efficiently.

**E-Commerce App** → Flutter · Dart · REST API

- Built a shopping application with product listings and cart functionality.
- Integrated external APIs to display product data.
- Managed application state for navigation and user interactions.

**Weather App** → Flutter · Dart · OpenWeatherMap API

- Created an app that displays real-time weather data based on location.
- Handled asynchronous data fetching and JSON parsing.
- Designed a simple user interface for displaying temperature and conditions.

## ACTIVITIES

**Programming Club:** Participate in coding sessions and peer learning activities.

**Football Team:** Member of the university football team, focusing on teamwork and coordination.

**Peer Support:** Assist classmates with debugging code and understanding programming concepts.

## LANGUAGES

**Amharic:** Native

**English:** Professional Working Proficiency

**Korean:** Beginner
